4	I think that more Japanese people will do volunteer work in the future. I have two reasons to support this opinion. First, the number of opportunities to volunteer is increasing. So, not only can people help others by volunteering but they can also do something that interests them. Second, people can gain work experience by doing volunteer activities. This can be good for their careers, especially if they are young. It is for these two reasons that I think more Japanese people will do volunteer work in the future.
