Children should be allowed to have smartphones because they can keep children from harm and because smartphones can help children with their schoolwork. To begin with, children who have smartphones are safer. This is because children can call their parents at any time. For example, if they get lost, they can call their parents for help. In addition, children can use smartphones to look up information on the Internet. This is useful when they are doing homework or writing papers. It is for these two reasons that I think parents should let their children have smartphones.
