4	In the future, people will stop buying newspapers because of technology and because of the cost. First, people will stop buying newspapers due to technology. There are now a variety of websites to get news from. As a result, it is easier to visit these sites with a computer or smartphone than it is to go and buy a newspaper. Second, people will not buy newspapers because of the cost. It is free to watch the news on TV or online, so there is no reason to spend money on newspapers anymore. For these reasons, newspapers will not be bought in the future.
