4	I have two reasons why I think that people should not take health supplements. To begin with, most health supplements are very expensive. Buying fresh fruit and vegetables at the supermarket is a cheaper way to get the vitamins and minerals that the human body needs. In addition, some health supplements are not actually healthy at all. They contain ingredients that can be harmful for people to take. For this reason, it is safer for people to avoid taking supplements altogether. It is for these two reasons that I think people should not take health supplements.
