4	I feel that people should be allowed to play violent video games. First, violent games are just entertainment. Playing such video games is a good way for people to reduce the stress of everyday life. What is more, people know that the scenes in violent video games are not real, so playing these games will not make people become violent in their everyday lives. In closing, it is for these two reasons that I think that people should be allowed to play violent video games.
