4	I agree with this opinion for two reasons. First, more garbage cans would improve people's manners and keep public places cleaner. If there are more garbage cans in such places, fewer people will leave their trash on the ground. Second, it is better for the environment. Plastic thrown away on the ground does not disappear, but it stays in the ground for a long time. So, with more garbage cans, more people will throw away their plastic in an environmentally friendly way. These are the two reasons why I agree with this opinion.
