5	I think learning about nature is important for young people. By learning about nature, young people will become more careful about protecting the environment in their daily lives. I have two questions. How many people are there in the hiking club? Can beginners join the hiking club?
6	Yes. I think it is a good idea for people to read books on their smartphones. There are two reasons. First, people can take many books with them on their smartphones. Smartphones are lighter than paper books. Second, it is good for the environment. Books on smartphones do not require natural resources such as paper.
