5	I think people should not wear headphones when they are outside. Wearing such things increases the risk of getting into a traffic accident. I have two questions. How many different running courses does your exercise program have? How long do you plan to continue your exercise program?
6	Yes, I think it is a good idea for restaurants to ask customers to write online reviews. First, online reviews might contribute to increasing sales. More people might visit the restaurants after seeing good reviews on the Internet. Second, the service of the restaurants will be improved. This is because the restaurant owners will work hard to get good reviews.
