5	That sounds great. I think more people will watch rugby. The World Cup was held in Japan, and I think more people have become interested in rugby. I have two questions. First, how many seats does the stadium have? Second, is the distance between the audience and the field close?
6	Yes, I think it is a good idea. First, people can perform multiple tasks at once. For example, they can talk on smartphones and do some work on tablet PCs. Second, they can use both devices in different ways. They can use portable smartphones when they are outside and tablet PCs when they are at home reading on large screens.
