5	I think a rule that does not allow cars on the streets helps local stores get more customers. People can enjoy shopping without worrying about having an accident with a car. I have two questions. How many stores are there? Were there any good restaurants on the shopping street?
6	Yes, I think so. This keeps students safe. Parents can find them easily, even if something urgent happens. Also, some problems can be solved in advance. Parents can give their children good advice beforehand, such as how to go to places safely and the places that children should not go.
