4	Some students have to wear uniforms while at school. They do not have to spend time choosing their clothes for school and can save money. However, uniforms do not allow them to be creative with fashion, and there is a safety risk because others can identify which school they go to.
5	I think so. First, many parents will be satisfied. Since these elementary schools can take care of children early in the morning, parents can go to work early without worrying about leaving their children alone at home. Second, children can make good use of their time in the morning. By going to school early, they can have more time to study or play with their friends. Therefore, I think the number of elementary schools which are opening earlier in the morning to help working parents will increase in the future.
