| 5 | I think places like rivers and mountains will become more popular for people to visit. People can relax by going to natural places. I have two questions. How much does it cost to attend the art class? What tools did you need to get for the art class? |
| 6 | Yes, I do. For parents, long vacations are suitable for travel. During such periods, their workplaces often take a break and this allows parents to easily go on a trip. Also, for children, they can experience many things they have never done before. During long vacations, they can go to faraway places that they cannot go to during short breaks. |
