		(29)	1

5	I think more people will use areas with sofas in movie theaters. These areas make people feel relaxed as if they were at home. By the way, I have two questions. Is the movie theater open late at night? Is the theater always crowded?
6	Yes, I think so. First, buying clothes for pets can help protect their health. For example, wearing clothes can prevent pets from getting sick during cold seasons. Second, buying clothes for pets can help keep pet hair from spreading around the house. This is because pet hair sticks to the clothes, so owners can keep their homes nice and tidy.
