		(29)	1

5	I don't think people should stop playing the guitar in the park. People with different purposes can enjoy parks. They can perform music with instruments if they don't disturb others. What did you eat for the picnic lunch? Did you leave for a picnic early in the morning?
6	Yes, I think so. First, having their own room gives children a quiet and comfortable environment. They have their own personal space, so they can relax and concentrate better on their studies or favorite activities. Second, having their own room teaches children responsibility. They learn to keep their space tidy and organized on their own.
