4	Some cities have begun to introduce a concept of 24-hour public transportation. It can provide great convenience for passengers and help economic growth by increasing employment opportunities. However, transportation companies may be forced to raise fares to cover operational costs, and nearby residents may get stressed if their sleep is disrupted.
5	I agree with this idea. First, digital newspapers offer great convenience. People can access a wide range of news at any time and from anywhere on their electronic devices. Also, digital newspapers provide access to more articles than traditional printed newspapers. Second, digital newspapers help protect the environment. By reducing the need for paper and printing machines, fewer trees are cut down, and less energy is consumed. Therefore, I agree with the idea that digital newspapers will completely replace printed newspapers.
