5	I think apps that use a phone's camera to see if clothes fit will become more popular. People can save time by not going to the store. I have two questions. How much is one copy of the magazine? Which age group buys that magazine the most?
6	Yes, I think it is good. First, comic books can encourage students to visit libraries. That is because comic books can attract students who do not like reading. Second, comic books can help students learn things that are difficult to understand from regular books. Students can use comic books along with regular books for their studies in the library.
