| 5 | I think more people will buy cars with a solar panel on the roof. It is convenient for people to use power from a solar panel during outdoor activities such as camping. How many staff were at the car shop? How much was the most expensive car at the shop? |
| 6 | Yes, parents have to check what their children look at on the Internet. First, checking it keeps children safe from harmful content. For example, children can avoid seeing violent and scary images online. Second, parents can guide their children to useful information. With their parents' support, children can learn from better sources and develop the skills to use the Internet. |
