4	Social media is very common today. It enables people to learn about important events quickly because information travels fast online. However, people may believe incorrect things since anyone can post wrong information without checking it.
5	Yes, I think it is important for people to plant trees in cities. First, trees create a healthier environment for people. By looking at trees, people can relax and reduce stress in their daily lives. Second, trees provide shade and release water into the air. This helps keep cities cooler and more comfortable in summer.
