4	Many people choose to read online customer reviews before making a purchase. They give people useful information to make better choices and offer companies chances to improve their products. However, it is difficult to know which reviews to trust because some are not real, and too many negative comments can especially hurt a small business.
5	I think this is a good idea. First, it is efficient for students to study with it. They can watch unclear parts again and again and skip sections they already understand. Second, it can provide more opportunities for students who want to study many subjects and spend many hours learning. Since it is free, they can study as much as they want without financial worries. Therefore, I think it is a good idea for people to provide free online video content to help students study by themselves at home.
