5	I think more people will make clothes and accessories as gifts in the future. When people make gifts by themselves, they can show their love and thanks to others. What kind of food did you eat at the party? Did you have to pay to join it?
6	Yes, I think so. First, choosing where they sit helps students enjoy their class more. Students can talk with close friends and sometimes even help each other learn. Second, choosing their seats can help them focus better. For example, students can sit where they can see the blackboard clearly and hear the teacher well.
