		(29)	2

5	I think more people will use trains that run until very late at night around New Year's Day. These trains are very helpful for people who want to attend New Year's events at night. How big is the new station? Does it have a convenience store in it?
6	I think fall is the best season for students to take entrance exams. First, the weather is nice and cool, so students can focus on their studies better than in other seasons. Second, students will have enough time to prepare for their new school life after the exams. They can easily move or buy the necessary things before spring.
