4	Buying ugly vegetables is becoming popular among shoppers today. It is helpful because people do not waste food. However, they may be difficult to cut safely, which can lead to minor accidents in the kitchen.
5	Yes, I think it is a good idea. First, students should learn the skills required for their future careers. They can choose a school that offers classes to learn those skills. Second, having a career in mind makes students work harder at school. They will study a lot every day to make their dreams come true.
