4	Selling discounted food at convenience stores has become common. It is helpful because companies can show they care about environmental problems. However, this adds extra tasks for the workers, so stores must find better ways.
5	Yes, I think so. First, students need to be taught that it is important to think for themselves. They will understand that AI is just a tool to help them develop their own ideas. Second, students will learn that AI sometimes makes mistakes. They will realize that it is necessary to check whether the answers are correct.
